# I'M getting kidnapped

By Goutham Nannuta

Founder Background

➤ **I am Goutham Nannuta, From Mancherial, Telangana. I am 13 years old . I am Building an app to not happen any abduct and etc..**

➤ **I Want to make sure that people should be safe from the abduction people with the police security.**

➤ **I Love to play with my friends and I love drawing and listening music and Riding Bikes.**

Problem statement:

➤ **Kidnapping is a global problem with many root causes, including unemployment, poverty, religion, and politics.**

➤ **Each of these root causes must be evaluated and addressed in order to eliminate this terrible scourge once and for all.**

➤ **Kidnappers sometimes choose to torture their victims so that they can force money out of their relatives or associates. Sometimes, they may even torture for fun. One form of torture is rape.**

➤ **These problems are usually caused by parental child abduction, children abduction for salvery and abduction results from parents to bring up as their own.**

Solution statement:

> There are solutions that may help reduce the rate of kidnapping, including:
> •Training strong anti-kidnapping agents
> •Monitoring the activities of the police
> •Serious punishment for offenders
> •Job creation

> When the abduction is happen that information should be reach to near by police stations and emergency contacts or parents by the app in the smart phone.

> When the information reached to near by police station .The police should be ready with the best team.

> The police team should contain best weapons with them.

Customer Feedback:

➤ **Customer 1:**
**I like the idea of "I'M getting kidnapped".I Have 15
years old daughter. App like this so useful To me
.This is the best for every one.**

➤ **Customer 2:**
**I like the idea of "I'M getting kidnapped".I have
experienced abduction on my children at their 5 years .
They have forced me for money.**
